

I have been a listener of K-LOVE radio on 91.1 FM in Denver, Colorado for the last 3 years. This radio station has been vital to both me and my husband. If K-LOVE was to be displaced by an LPFM, I'm afraid that the best thing in radio will not be available to my family. This station has come to serve hundreds of thousands of listeners all across America with family friendly programming. K-LOVE's core values are to support wholesome values and by doing so it has had a positive and encouraging impact on communities all across America. Please continue to allow K-LOVE to be broadcasted!
